

GLOBAL ANTHEM

Connie Cook Smith ©1993

We are One People
Coming from a love that never ends
We are infinite family
Eternal friends
It never ends
Eternal friends
It never ends

We are One Spirit
Higher than the moon and every star
Love is what we're made of
Love is what we are
What we are
What we are
Love is what we are

We are one Planet
Shining through a dark and empty space
Filling the silence with friendship
For every face
We have a place
For every face
There is a space

We are one People
We are One
