

# Remember

Remember the sorrow  
we used to know  
But look at the sunlight now  
Each day is a miracle  
We begin to grow  
And we're showin' each other how

You & I & earth & sky  
We begin to know  
You & I experience  
The Sun, the ceaseless flow

The times are a-changin'  
Spirit's on the rise  
Freedom is flowin' from above  
Our friends from the universe  
Heal our history  
And fill all broken hearts up with love
